

# Early Years Foundation Stage (EYFS) Wheel

Making  
children's learning  
instantly visible

**Co-written and designed by Early Years Practitioners**

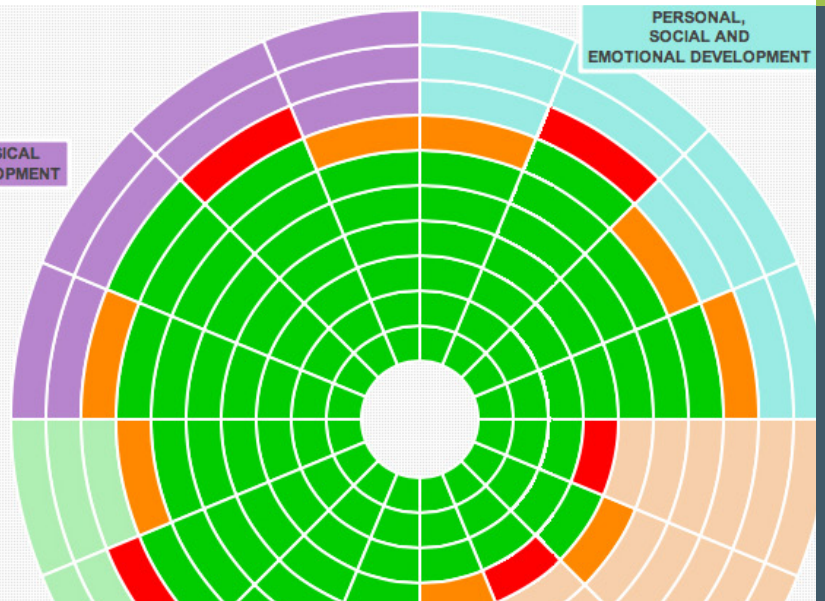

the Early Years Foundation Stage (EYFS) Wheel provides an online, real time log of children's progression, which demonstrates where they actually are with reference to the EYFS on a daily basis.

Creating clear,  
shared learning  
journeys

PHYSICAL  
DEVELOPMENT

PERSONAL,  
SOCIAL AND  
EMOTIONAL DEVELOPMENT

The Early Years Foundation Stage (EYFS) Wheel provides an online, real time log of children's progression, which demonstrates where they actually are with reference to the EYFS on a daily basis. The Wheel:

- Saves valuable time through its simplicity and speed - statements, photos, files and documents can be uploaded instantly reducing paperwork
- Makes learning visible – a clear observational tool accessible to all primary carers
- Is an evidence based, real time document that charts a child's progress
- Extends children's learning
- Facilitates and compliments planning - reflective and reactive
- Turns "Development Matters" into an interactive and working document
- Prepares the setting to be Ofsted ready
- Raises the standard of childcare provision
- Increases communication with parents
- Turns childcare into family care

The EYFS Wheel: know and celebrate each child for who they are, through their play.

Since introducing the EYFS Wheel into our setting it has improved our awareness and knowledge of each child's individual learning paths. We can now say that we see each child more clearly.

Charlotte Lucas, Co-owner and Founder, Welton Free Rangers, Forest Nursery School.
